

Cody Hoffman

My name is Cody James Hoffman and it comes with great pride but also great humility to announce my candidacy for the supervisor #2 position for our great Town of Belle Plaine. My wife Angie and I moved to Belle Plaine about 5 years ago and since had two children with one on the way. In 2014 I received my bachelor's degree of science in radiologic technology from Marian University and I am currently working at Theda Care Hospital in Shawano as an MRI and CT technologist. A little look into my personal life, I enjoy hunting, fishing, family time and golf. I enjoy making decisions and being a leader. Like most of us in this community, I am a simple man trying to live out the American dream.

Here is what I bring to the table: A fresh and unique perspective on current and future topics. I welcome open dialog and the ability to discuss different ideas. If elected I promise to make ethical decisions being fair to all involved.

When I study the hierarchy of our government there is always one conclusion I find myself seeking in any candidate and that is transparency. I vow to be open and truthful to our public and invite any and all questions or concerns to be brought to me. You can contact me on my cell phone 715-851-3693. Thank you for your time and please vote for me.
