GIBSON ISLAND UPDATE

Alvin talked about the condition of Gibson Island; much work needs to be done to get it back to decent shape. Shawano County considers the Handicap trail as a structure therefore a permit will be needed from them, that permit will cost \$600.00. Alvin walked the Island; a suggestion was made to move the trail seventy-five feet away from the water (high water mark). He stated there was many trees down, and there should have been shoreline built up to avoid some of the damage ice shoves had made. Shanda Hubertus is working with WAMSCO and Shawano County on trying to get a grant to help pay for work needed on Gibson Island, she said if we get the money the town should not have to contribute anything because of volunteer hours.

Kevin King mentioned he and his daughter have chain saw certification and would be able to help cut up down trees.

MONEY BORROWING IN 2025

Alvin talked about borrowing money to then be able to exceed the levy limit. If we do this next year we will need to start working on it in September.

Wade said the firehose reel that they had installed does a great job but we really need another to reach the areas that can't be reached. Alvin said to check into it. And the last thing they are going to check into is to move the air compressor in the firehouse because of the noise it makes, it disrupts their meetings and trainings.
